Feedback on team dynamics (not for grade):

1. How effectively did your group work?

We did the best we could given the circumstances, though sometimes I think my group wasn't as responsive as it should have been.

2. Were the behaviors of any of your team members particularly valuable or detrimental to the team? Explain.

It was valuable that everyone wanted to succeed and put in the effort.

3. What did you learn about working in a group from this project that you will carry into your next group experience?

Working remotely like this is definitely a different experience. I learned how important it is that everyone is on the same page.

4. Do you think the groups should be reshuffled multiple times in a semester?

No, I think staying with the same people was good for cohesion.
